

NOTES FOR THE ELEVENTH MEETING OF TASK TEAM IV  
- INSTALLATIONS -

3 May 1965

1. On 26 April, I received from [redacted] CODIB Secretary, a draft of CODIB's "Third Quarterly Report," accompanied by the Chairman's suggestion that the Report could be given telephonic approval by 30 April. Addressed to the Chairman, United States Intelligence Board, the Report furnished summaries of activities and accomplishments of each of the CODIB Task Teams. Although the portion of the Report having to do with Task Team IV was well written, it lacked desired specificity and overstressed certain elements of our operations and understressed others. Consequently, I took the liberty of providing [redacted] with a proposed revision, a copy of which you will find attached.

25X1

2. Thank you for your careful examination, corrections, and suggestions for improvement of the 27-page draft Interim Report, at our last meeting. I hope that this morning you will be able to give the Tabs the same careful scrutiny you gave at the last meeting to the body of the draft Interim Report.

25X1

3. Before turning to this task, however, I suggest that we review the draft ably prepared by [redacted] of the minutes of our meeting of 20 April.

25X1

4. As soon as we have reached agreement on the Report and its accompanying Tabs, I believe that we should reach agreement on coordination procedures and then turn the draft over to [redacted] with our best wishes, for further processing and then await word from her as to when we should reconvene for the purpose of signing the Interim Report and picking up copies for coordination purposes.

5. Before concluding our session this morning, do we have any comments on the Photo Transmittal Form submitted at our last meeting by Mr.
